Education

Austin Coding Academy - Full Stack Web Development

Northwest Woodworking Studio - Resident Mastery Program

Austin Community College - Drafting and Construction Technology

Skills

I have been in food service management for most of my career, with some work in retail management as well. I have used a lot of excel and sheets, as well as other POS software. Since starting school I have studied web development. I am very comfortable on the computer, and very confident with in person, online, or phone based communication.
